CULTURAL CLIMATE CHANGE
Far away from everything, on the periphery of Europe we face an uncompromising nature, extreme climate (change), enormous distances and wild vastness, excessive light and excessive darkness. Only a few in Europe are willing to live with extreme hardship and extreme beauty.

Actual Climate Change impacts us more visibly here than almost anywhere else in Europe with biodiversity already significantly diminished. The global response to climate change has so far been too timid. We explore this topic in our theme Brave Hinterland.
Cool Contrasts

Oulu is the kingdom of great contrasts – positive, but also challenging. Contrasts such as the nightless nights of the midnight sun and sunless days in the heart of winter. Contrasts have the power both to connect and disconnect, but also to create something new.

Cool Contrasts is about rebalancing our communities. There is already a recognised European need to use culture as a means to help reduce health inequalities. Oulu2026 will work with our citizens and with European partners to develop cultural practices that promote positive engagement to re-balance these inequalities.
Oulu is on the cusp. We could settle for being a tame municipal city on the fringe. Or we could go Wild. We choose Wild.

With Wild City we bring wildness into the city by celebrating the wilderness around it. Creating a new cultural approach with our unique northern vibe. Oulu as a cultural laboratory, going wild for Europe.

What exactly is a creative city in the middle of the wild nature? What is a lively, creative village? How do art, subcultures and creative spaces fill emptiness, silence and darkness?
